Chapter 1 by Comp Som "CS" Anichi

There's nothing you can buy with Story War points.

They don't exactly equal to a rank of any kind.

Although, you feel like racking up some points.

Because you wonder, how does one reach over a hundred?

Chapter 2 by Joakim

Nothing you can buy yet... YET!

Muhahaha!

Chapter 3 by Comp Som "CS" Anichi

What can we buy it with?

Maybe customize our profile? Ahaha. Not sure.

Chapter 4 by LegalPlaniist

Joakim institutes a capitalist Points system. People with enough points can buy the equity of other's users, so every time that user receives a vote, the investor gets a portion of those points.

Intellikat becomes the Rockefeller of Story Wars. Everybody writes stories for him only.

Nobody is free. Even the newcomers are subjugated under the capitalist system.

Actually, capitalism sounds like a bad idea now.

Chapter 5 by Dusty the Eevee

We should totally be able to purchase a thing that lets us set the amount of chapters we need. One purchase, infinite use. To incite people to get points.

Chapter 6 by Dusty the Eevee

ooh!

And maybe other upgrades!

Like swanky new fonts or custom swag or other neat things.

As long as you can't buy them with money I'm good.

Chapter 7 by Meghan Byrd

I think about cats ,and bacon

Chapter 8 by lightningstrikesannah (I'm back!)

And finally, I think there should be a story war store (like a few chapters mentioned above me)

Fonts, Amount of Chapters in a story, Joakim's new Stuff, (see chapter 6) and you could also get points if you visit the site consecutively for a week or something.
